STUDY OF MEDICINE WAS FAR ADVANCED

The liver pill is as old as civilization and "merning after" headaches and a cure therefor was known before Leonidas and his 300 Spartans carved up a number of healthy Persians at Thermopylae.

This was made clear by Prof. Morris Jastrow, renowned as a physician and an Assyriologist, who has just placed before the College of Physicians in Philadelphia a compilation of facts that show the ancients to have had a knowledge of therapy that would compare well with ours of today. A piece of clay tablet inscribed with cuneiform characters is the most important exhibit, and it contains notations by an ancient physician of Nineveh.

Prof. Jostrow's researches show that when Tiglath-Pilesar had a fever the royal physician knew how to poultice his head; and when Nabopolassar groaned with rheumatism the royal masseur manipulated the afflicted joint in the most approved manner,

# THE JAG OR THIS?

Here is the oldest "morning after" cure in the world, as it was inscribed on a cuneiform tablet in Assyria 3,000 years

"If a man has taken strong wine and his head is affected and he forgets his words and his speech becomes confused. his mind wanders, and his eyes have a set expression; to cure takee licorice, shi-man plant, beans, oleander (seven other native plants are named to be compounded with oil and wine before the approach of the evening, and in the morning before sunrise and before anyone has kissed him, let him take it and he will recover."

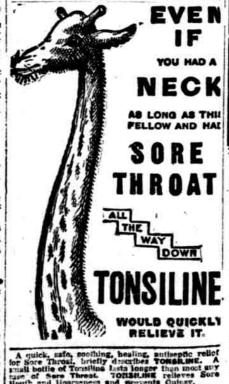

and his head is affected and he forgets his words and his speech becomes confused, his mind wanders and his eyes have a set expression; to cure him, take licorice, shi-man plant, beans oleander, and so forth (eleven drugs in all are enumerated), to be compounded with oil and wine before the approach of the Cula (in the evening) and in the morning before sunrise and before any one has kissed him, let him take it and he will recover,

#### Recipe On Tablet.

This cure is to be found on the cuneiform tablet now in the possession of the College of Physicians, which is approximately 3,000 years old. Another cure which shows an even wider range of anatomy and medical skill reads;

If a fever seizes a man, localized in the nerves of the forehead, and affects his eyes so that his vision is clouded \* \* \* and he is afflicted with an acute inflammation and his eyes water, pour one-third of a ka of powdered flour with Khaldappen stone; take one-third of a measure of it for the head that pains; knead with cassia juice, wrap it around (the head), attach it (by means of a bandage) and for three days do not remove it.

Prof. Jastrow says that the Assyrians was rediscovered.

## REPRIMAND TO BE CARABAOS' PENALTY

Cabinet Officers So Decide. Realizing Futility of Any Other Method.

Humiliation by public reprimand i the punishment which the highest officers of the United States military services, implicated in the now famous Carabao dinner will receive. They will escape court-martial for the criticism of the Administration's policies only because the Administration realizes the futility of trying to cinvict them. No military man would adjudge a brother officer guilty of culpability in respect to the skits which marked the dinner. Administration officials realize flus, and declare that attempts to mete out punishment through the trials of the officers involved would be farcical.

Secretary of the Navy Daniels and Secretary of War Garrison, who have been conducting the investigation to fix the blame for the advance notices of the dinner criticising the Philippine military man would adjudge a brother

who at present head the Washington Corral of the Military Order of Caraba will be asked to resign. Much comment. on this anticipated action of the Administration was current in army and navy circles today.

#### Heller Shoulders Blame.

Rear Admiral Howard, who is conceded to be one of the most popular men in the navy, and who acted as toastmaxter at the banquet, would not discuss the report that he would be asked to resign as an officer of the society by Secretary Damets. He declared that he was ready to obey his superiors, and reiterated his denial that he is to blame for any offense offered the President or members of his Cabinet.

Blame for the advance notices of the dinner, which are said to have been dinner, which are said to have been the principal reason for the President resigning honorary membership in the order and ordering an investigation, has been shouldered entirely by Dr. Joseph M. Heller, secretary of the local branch of the Carabao. Dr. Heller is on the non-netive list of the Medical Reserve Corps. U. S. A., and, therefore, cannot be reached with a penalty. He supervised the press notices of the affair sent out in advance. The other officers of the society left everything in his hands.

Should the public reprimand method Should the public reprimand method of punishment be adopted by the President and Secretaries of the Navy and War, many of the unsmirched records of military officials who have givanced to the highest rank will be blotted. This would be a punishment, the severity of which only military men realize.
